

XM is the FUTURE of Radio. All of my friends and family have XM and NO LONGER LISTEN TO TRADITIONAL RADIO!Why, you ask?
BECAUSE WHO WANTS TO LISTEN TO COMMERCIALS ALL DAY??? NOT US!!!!
XM allows the PAYING subscriber to listen COMMERCIAL-FREE!
Since we are PAYING subscribers, it is TOTALLY DIFFERENT than a regular radio broadcast (in which users DO NOT PAY).
XM should be able to provide local weather and traffic information. It is their programming and their right.
It sounds as if the radio contingent is just pouting because more people are turning off their traditional radios. Remember - NO ONE WANTS TO LISTEN TO ONE SONG, THEN 20 MINUTES OF OBNOXIOUS COMMERCIALS!
Thank you.
